Recycle Everywhere APP update

As a user of the Recycle Everywhere mobile app, we want to update you on its status and our initiatives going forward.

In March 2021, Recycle Everywhere launched an incentive program and mobile app which resulted in Manitobans stepping up to improve their beverage container recycling habits.

As of June 30th, 2023, the Recycle Everywhere incentive program and mobile app will be discontinued. We will honour contest entries and prizing until June 30th, 2023.

Recycle Everywhere remains dedicated to public education regarding beverage container recycling and in the coming weeks we look forward to sharing the new and exciting ways for Manitobans to get involved in recycling more beverage containers.

Using recycled beverage containers to manufacture new ones conserves resources, reduces greenhouse gas emissions and saves energy required to process new raw materials. Our programs also keep thousands of tonnes of beverage containers out of the garbage and reduce litter, extending the life of Manitoba's landfills and increasing sustainability. These are results we will continue to build on.

Thank you for using the app, providing us with valuable feedback and being an active participant in our shared goal of beverage container recycling.

Should you have any questions in the meantime, please do not hesitate to reach out to us at appsupport@recycleeverywhere.ca.

With Regards,
The Canadian Beverage Container Recycling Association
